DETAILED ACTION

Specification

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: Drive element, claim 1, coupling point, and claim 24.

Election/Restrictions

2. Applicant's election without traverse of figure 1 in Paper No. ¹²11 is acknowledged.
3. Claims 5-12, 14, 25-30, 36 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 11. Claims 5-12 are withdrawn based on applicant's response and remarks as directed to the species of figures 2-3.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1, 3-4, 13, 15-24, 31-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims have been amended in a manner rendering determination of infringement not possible due to the presence of ambiguous terminology such as "a direction of motion of the drive element relative to the carrier element" as no motion of either the drive or carrier element

Art Unit: 3612

is positively recited, nor any relative positioning therebetween. Claim 1 is also vague in reciting "being caused to move along a path" as no structure or means has apparently been recited for this function.

Claim 18 continues to be indefinite in "adapted to be connected".

No coupling point of the guideway is disclosed and the claim 24 is not clear as a result.

Claim 33 lacks antecedent to "a roof part" as in --the--.

6. Unfortunately, determination of prior art references vis-à-vis the claims is, due to the ambiguities of the claims as listed above, not possible at this time.

Response to Arguments

7. Applicant's arguments filed 10/3/2003 have been fully considered but they are not persuasive. Please see the rejection above.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3612

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
